DETAILED ACTION

This Office Action is in response to the Amendment filed on November 6, 2003.

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

This application is in condition for allowance except for the presence of claims 1-4 and 8-10 non-elected without traverse. Accordingly, claims 1-4 and 8-10 have been cancelled.

Allowable Subject Matter

Claims 12-14 are allowed.

The following is an examiner's statement of reasons for allowance: the prior art references, alone or in combination, do not show an integrated circuit comprising a plurality of fuse electrodes disposed in a parallel array with a pitch less than the spot diameter of a laser beam to be used for cutting the fuse electrodes, an insulating film covering the fuse electrodes, wherein one of the plurality of fuse electrodes is disposed in a position in the insulating film that is different from a position of at least one other of the plurality of fuse electrodes, in a direction of a thickness of the insulating film. The

Art Unit: 2815

closest prior art (Carson) shows that a fuse electrode is disposed in a position in an insulating film that is the same as a position of another fuse electrode, in a direction of a thickness of the insulating film.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
